To the FCC,  
We have learned you are considering a proposal from NAB to limit XM Satellite Radio's ability to transmit Traffic and Weather information to its listeners.

I respectfully urge the FCC to reject NAB'S petition 04-160, I rely heavily on this information many miles in advance. As an over the road Truck Driver I use this information to adjust my routing due to Weather and Traffic conditions 100's of miles if not States from my destination. This format has been a "God Send" to my industry, please do not take this valuable tool from us.

Thank You

Jamie J. Krc
